

# First Level: Understand/ Use With Understanding [First \*\*]

REVIEWED: June 24	Term 1	Term 2	Term 3	Term 4
<b>Estimating and Rounding</b>	<ul style="list-style-type: none"> <li>▪ Estimate the place of a number on a number line</li> </ul>	<ul style="list-style-type: none"> <li>▪ Round numbers to the nearest 10</li> </ul>	<ul style="list-style-type: none"> <li>▪ Estimate answers to a calculation (+ and -)</li> </ul>	<ul style="list-style-type: none"> <li>▪ Round numbers to the nearest 100</li> </ul>
<b>Awareness of Number</b> ▪ Counting ▪ Numerals ▪ Quantity ▪ Place Value	<ul style="list-style-type: none"> <li>▪ Within the range of at least 1-100:           <ul style="list-style-type: none"> <li>○ Count forwards in 1s</li> <li>○ Count backwards in 1s</li> <li>○ Read in numerals and words</li> <li>○ Write in numerals only</li> <li>○ Place numbers on a number line</li> <li>○ Use concrete materials to represent, and recognise place value</li> <li>○ Partition and recombine in a variety of ways</li> <li>○ Describe and extend number sequences</li> </ul> </li> <li>▪ Skip count forwards in 2s, 5s and 10s.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Within the range of at least 1-500:           <ul style="list-style-type: none"> <li>○ Count forwards in 1s</li> <li>○ Count backwards in 1s</li> <li>○ Read in numerals and words</li> <li>○ Write in numerals only</li> <li>○ Place numbers on a number line</li> <li>○ Use concrete materials to represent, and recognise place value</li> <li>○ Partition and recombine in a variety of ways</li> <li>○ Describe and extend number sequences</li> </ul> </li> <li>▪ Skip count backwards in 2s</li> </ul>	<ul style="list-style-type: none"> <li>▪ Within the range of at least 500-1000:           <ul style="list-style-type: none"> <li>○ Count forwards in 1s</li> <li>○ Count backwards in 1s</li> <li>○ Read in numerals and words</li> <li>○ Write in numerals only</li> <li>○ Place numbers on a number line</li> <li>○ Use concrete materials to represent, and recognise place value</li> <li>○ Partition and recombine in a variety of ways</li> <li>○ Describe and extend number sequences</li> </ul> </li> <li>▪ Skip count backwards in 10s</li> <li>▪ Skip count backwards in 5s</li> </ul>	<ul style="list-style-type: none"> <li>▪ Within the range of at least 1-1000:           <ul style="list-style-type: none"> <li>○ Count forwards in 1s</li> <li>○ Count backwards in 1s</li> <li>○ Read in numerals and words</li> <li>○ Write in numerals only</li> <li>○ Place numbers on a number line</li> <li>○ Use concrete materials to represent, and recognise place value</li> <li>○ Partition and recombine in a variety of ways</li> <li>○ Describe and extend number sequences</li> </ul> </li> <li>▪ Skip count forwards in 100s</li> <li>▪ Skip count backwards in 100s</li> </ul>
<b>Addition &amp; Subtraction</b>	<ul style="list-style-type: none"> <li>▪ Add/subtract by counting on/back within at least 100</li> <li>▪ Use number bonds to 10 to add several single digit numbers</li> <li>▪ Use number bonds and doubles to at least 20 to create/solve addition/subtraction problems</li> <li>▪ Add 10 to a multiple of 10, up to 100</li> <li>▪ Subtract 10 from a multiple of 10, up to at least 100</li> <li>▪ Recognise, describe and create part whole relationships</li> <li>▪ To understand commutative law (e.g. 26+13=13+26)</li> </ul>	<ul style="list-style-type: none"> <li>▪ Add 2-digit numbers with no bridging (e.g. 23+35) using concrete materials</li> <li>▪ To understand commutative law (e.g. 26+13=13+26)</li> <li>▪ Subtract 2-digit numbers without exchange (e.g. 74-21)</li> </ul>	<ul style="list-style-type: none"> <li>▪ Add 2-digit numbers, bridging 10 (e.g. 37+49) using concrete materials</li> <li>▪ To understand commutative law (e.g. 26+13=13+26)</li> <li>▪ Subtract 2-digit numbers exchanging a 10 (e.g. 51-29) using concrete materials</li> <li>▪ Add tens (e.g. 60+30), using number facts to 10 (e.g. 6+3)</li> <li>▪ Add 10 to any 2-digit number</li> <li>▪ Subtract 10 from any 2-digit number</li> </ul>	<ul style="list-style-type: none"> <li>▪ Add 3-digit numbers without bridging (e.g. 245+124)</li> <li>▪ To understand commutative law (e.g. 26+13=13+26)</li> <li>▪ Subtract 3-digit numbers without exchange (e.g. 245-124)</li> <li>▪ Use number bonds to derive facts to 100 (e.g. 6+3=9, 36+3=39)</li> </ul>
<b>Multiplication &amp; Division</b>	<ul style="list-style-type: none"> <li>▪ Make equal groups of 2, 5 and 10 using concrete materials</li> <li>▪ Make arrays of 2, 5 and 10</li> <li>▪ Share equally into groups of 2, 5 and 10, using concrete materials</li> <li>▪ Make link between multiplication and division</li> <li>▪ Correctly use the language: share equally, divide and total</li> <li>▪ Use appropriate vocabulary to create multiplication and division stories, using concrete materials.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Using concrete materials, learn multiplication facts for 2</li> <li>▪ Link 2 x table facts to division, using concrete materials</li> <li>▪ Introduce <math>\times</math> and <math>\div</math> signs</li> <li>▪ Use <math>\times</math>, <math>\div</math> and <math>=</math> signs to create and solve number sentences</li> </ul>	<ul style="list-style-type: none"> <li>▪ Using concrete materials, learn multiplication facts for 5 and 10</li> <li>▪ Link 5 and 10 x table facts to division, using concrete materials</li> <li>▪ Make connections between 2, 5, and 10 x table facts</li> <li>▪ Create and solve <math>\times</math> and <math>\div</math> number sentences for 5 and 10</li> <li>▪ Continue to practise <math>\times</math> and <math>\div</math> facts for 2</li> <li>▪ Use <math>\times</math>, <math>\div</math> and <math>=</math> signs to create and solve number sentences</li> <li>▪ Use concrete materials to demonstrate 'remainders' in division e.g. <math>9 \div 2 = 4r1</math></li> </ul>	<ul style="list-style-type: none"> <li>▪ Continue to practise <math>\times</math> and <math>\div</math> facts for 2, 5 and 10</li> <li>▪ When a number is not exactly divisible by 2, 5 or 10, calculate the remainder (within the multiplication table only)</li> </ul>
<b>Patterns &amp; Relationships</b>	<ul style="list-style-type: none"> <li>▪ Describe and create number patterns counting forwards in 1s, 2s, 5s or 10s</li> <li>▪ Identify odd and even numbers</li> </ul>	<ul style="list-style-type: none"> <li>▪ Identify and create patterns of the 2 x table, counting forwards, backwards, doubling, and halving</li> </ul>	<ul style="list-style-type: none"> <li>▪ Identify and create patterns of 10 x table, counting forwards, backwards, doubling, and halving</li> <li>▪ Identify and create patterns of 5 x table, counting forwards, backwards, doubling, and halving</li> </ul>	<ul style="list-style-type: none"> <li>▪ Identify and create patterns involving counting in 10s and 100s</li> </ul>
<b>Expressions &amp; Equations</b>	<ul style="list-style-type: none"> <li>▪ Solve simple equations where a picture or symbol is used to represent a number (up to at least 20), e.g. <math>\blacksquare + 8 = 15</math></li> </ul>	<ul style="list-style-type: none"> <li>▪ Using concrete materials, use the terms 'equals to' and 'not equals to' to compare amounts. Represent this using the symbols <math>=</math> and <math>\neq</math></li> </ul>	<ul style="list-style-type: none"> <li>▪ Using concrete materials, use the terms 'greater than' and 'less than' to compare amounts. Represent this using the symbols <math>&gt;</math> and <math>&lt;</math></li> </ul>	<ul style="list-style-type: none"> <li>▪ Solve simple addition, subtraction, multiplication and division equations where a picture or symbol is used to represent a number e.g. <math>\blacksquare + 15 = 17</math> and <math>\blacksquare \times 2 = 8</math></li> </ul>

## First Level: Understand/ Use With Understanding [First \*\*]

	Term 1	Term 2	Term 3	Term 4
<b>Fractions, Decimals and Percentages</b>	<ul style="list-style-type: none"> <li>▪ Identify <math>\frac{1}{2}</math> and <math>\frac{1}{4}</math> of a shape</li> </ul>	<ul style="list-style-type: none"> <li>▪ Record <math>\frac{1}{2}</math> and <math>\frac{1}{4}</math> using correct notation</li> <li>▪ Represent <math>\frac{1}{2}</math> or <math>\frac{1}{4}</math> of a shape</li> </ul>	<ul style="list-style-type: none"> <li>▪ Represent <math>\frac{1}{2}</math> or <math>\frac{1}{4}</math> of a shape</li> <li>▪ Find <math>\frac{1}{2}</math> of a quantity</li> <li>▪ Linking to multiplication, find <math>\frac{1}{5}</math> and <math>\frac{1}{10}</math> of a quantity using concrete materials</li> <li>▪ Introduce the terms numerator and denominator</li> <li>▪ Recognise that the larger the denominator, the smaller the part</li> </ul>	<ul style="list-style-type: none"> <li>▪ Find <math>\frac{1}{2}</math>, <math>\frac{1}{5}</math> and <math>\frac{1}{10}</math> of a quantity, using concrete materials and linking to division</li> <li>▪ Recognise that the larger the denominator, the smaller the part</li> </ul>
<b>Measurement:</b> <ul style="list-style-type: none"> <li>▪ Money</li> <li>▪ Time</li> <li>▪ Length</li> <li>▪ Mass</li> <li>▪ Volume</li> <li>▪ Area</li> </ul>	<ul style="list-style-type: none"> <li>▪ Order months of year, relate to seasons and key annual events</li> <li>▪ Record dates in a variety of formats</li> <li>▪ Introduce the number of days in each month</li> <li>▪ Estimate length in centimetres or metres</li> <li>▪ Use the appropriate instrument to measure length to the nearest centimetre or metre</li> <li>▪ Record length using appropriate notation</li> </ul>	<ul style="list-style-type: none"> <li>▪ Make totals and give change to at least 50p</li> <li>▪ Read and show 'o'clock' and 'half past' times on analogue and digital 12-hour clocks</li> <li>▪ Estimate mass in grammes or kilogrammes</li> <li>▪ Use a variety of weighing scales to measure mass in grammes or kilogrammes</li> <li>▪ Record mass using appropriate notation</li> </ul>	<ul style="list-style-type: none"> <li>▪ Make totals and give change to at least £1</li> <li>▪ Identify coins and notes to make totals to at least £20</li> <li>▪ Read and show 'quarter past' times on analogue and digital 12-hour clocks</li> <li>▪ Know that there are: 60 seconds in a minute, 60 minutes in an hour and 24 hours in a day, 52 weeks/365 days in a year.</li> <li>▪ Estimate volume in millilitres or litres</li> <li>▪ Use a variety of containers to measure volume in millilitres or litres</li> <li>▪ Record volume using appropriate notation</li> </ul>	<ul style="list-style-type: none"> <li>▪ Make totals and give change to at least £5</li> <li>▪ Read and show: 'o'clock', 'half past' and 'quarter past' times on analogue and digital 12-hour clocks</li> <li>▪ Select and use appropriate timers to time activities</li> <li>▪ Estimate length, mass and volume of objects</li> <li>▪ Choose the appropriate instrument to measure length, mass and volume of objects</li> <li>▪ Compare estimates with actual measurements</li> <li>▪ Use square grids to estimate then measure the area of simple 2d shape to the nearest square</li> </ul>
<b>Shape, Position and Movement</b> <ul style="list-style-type: none"> <li>▪ 2D and 3D Shape</li> <li>▪ Angles and Symmetry</li> <li>▪ Transformation</li> </ul>	<ul style="list-style-type: none"> <li>▪ Use the properties of 2d shape (side, corner (vertex), angle) to create tiling patterns with 1 or 2 shapes</li> <li>▪ Recognise symmetrical patterns and shapes in the environment, patterns and pictures</li> <li>▪ Follow and give instructions for turning: full turn, half turn, quarter turn, clockwise, anticlockwise, right, left. Introduce that a right angle is <math>90^\circ</math>, linking to a quarter turn</li> </ul>	<ul style="list-style-type: none"> <li>▪ Recognise 1 line of symmetry in a 2d shape</li> <li>▪ Recognise and create symmetrical patterns</li> <li>▪ Recognise the name of the 4 compass points: north, south, east, west</li> <li>▪ Use compass points to introduce the idea of where and why grid references are used</li> </ul>	<ul style="list-style-type: none"> <li>▪ Recognise 2d shapes and 3d objects in different orientations and sizes.</li> <li>▪ Follow and give directions using the four compass points and clockwise/anticlockwise</li> <li>▪ Recognise that a quarter turn is right angle of <math>90^\circ</math></li> <li>▪ Read and understand 2-figure grid references</li> </ul>	<ul style="list-style-type: none"> <li>▪ Recognise 2d shapes within 3d objects.</li> <li>▪ Find right angles in the environment and in 2d shapes</li> <li>▪ Compare and describe angles in relation to a right angle</li> <li>▪ Plot 2-figure grid references</li> </ul>
<b>Information Handling:</b> <ul style="list-style-type: none"> <li>▪ Data Handling and Analysis</li> <li>▪ Ideas of Chance and Uncertainty</li> </ul>	<ul style="list-style-type: none"> <li>▪ Explain and extract information from simple data sets: table, pictograph, block graph and Carroll diagrams</li> <li>▪ Use the language of probability e.g. <b>likely/unlikely, possible/impossible</b> and <b>certain/uncertain</b> to make a reasonable prediction about everyday events. For example: Will it rain today?</li> </ul>	<ul style="list-style-type: none"> <li>▪ Explain what information in a pictograph with a scale of 2, 5 or 10 shows</li> <li>▪ Extract information from a pictograph with a scale of 2, 5 or 10 by answering questions e.g. How many people have a dog?</li> <li>▪ Continue to use the language of probability when discussing data sets</li> </ul>	<ul style="list-style-type: none"> <li>▪ Explain what information in a bar chart shows, with a scale of 1, 2, 5 or 10 and evenly spaced bars, with every division marked.</li> <li>▪ Extract information from a bar chart with a scale of 1, 2, 5 or 10 and evenly spaced bars, with every division marked, by answering questions.</li> <li>▪ Work with both horizontal and vertical bar charts</li> <li>▪ Gather data, using tally marks, and create a bar chart with a scale of 1</li> <li>▪ Use the language of probability to make reasonable predictions about data</li> </ul>	<ul style="list-style-type: none"> <li>▪ Gather data, using tally marks, and create a bar chart with a scale of 1, 2, 5 or 10</li> <li>▪ Read, explain and extract information from data using digital technology e.g. weather, Topmarks data games</li> <li>▪ Use the language of probability to make reasonable predictions about data</li> </ul>
